TEST(S) ORDERED:		RECEIVING: (FOR CYREX USE ONLY)	
Test	Specimen Required	Specimen: <input type="checkbox"/> Oral Fluid <input type="checkbox"/> SST <input type="checkbox"/> Serum <input type="checkbox"/> Whole Blood	
		Date:	Time:
		Comments:	

Test Requisition must contain complete patient information, physician information, tests ordered, date and time of specimen collection, and payment information. Failure to supply all information will cause delays in testing/reporting of results.

CANCELLATION & REFUND POLICY Test cancellations are only accepted prior to specimen accessioning.

A request for test cancellation received after accessioning cannot be processed. Refunds and credits are offset for services rendered, including phlebotomy and shipping costs, unless the refund is due to the inability to provide results due to laboratory error. Discounts dependent on cancelled tests are reversed on cancellation. Requests for refund should be made in writing and include your requisition number. Test cancellations may be submitted by fax to (602) 759-8331. Cancellation fax forms are available online at www.CyrexLabs.com.

POSSIBLE INTERFERENCES WITH THE RESULTS OF CYREX TESTS

While Cyrex is unable to provide an exhaustive list of medications, foods, conditions or other factors that could interfere with the results of a Cyrex test, please note that:

- Immunosuppressant and corticosteroid drugs can reduce antibody production and cause false negative results.
- Recent antigen exposure is necessary in order to measure antibody responses.
- Infections can interfere with test results.
- Prescription and OTC medications may interfere with the results of Array 11.

For more information on possible interferences, please consult the FAQs on our website, and if appropriate, the prescribing physician.

HEALTH CARE PROFESSIONAL INSTRUCTIONS

Please provide your patient with the appropriate specimen collection kit(s) and copy of their test requisition form(s).

ADDITIONAL TESTING (Add-Ons) - Complete the Add-On request online at www.CyrexLabs.com

Verify with the laboratory for specimen stability and quantity of specimen required.

Multiple add-ons to existing orders will be accepted within 21 days of specimen receipt; after that time, specimens will be frozen and only one add-on request, which can consist of several arrays, can be processed between days 22-89. Specimens are stored for 90 days.

PATIENT INSTRUCTIONS

SERUM TESTING:

Payment for serum test(s) must be received before specimen can be processed and blood draws may be scheduled. There are no dietary or other pre-test restrictions for blood draws.

Check the TEST(s) ORDERED/Specimen Required section of the Test Requisition form to verify a Serum specimen is required.

- If you paid for your test at your doctor's office, proceed with scheduling your blood draw.
- If you need to make payment, pay online at CyrexLabs.com and proceed to schedule your blood draw.

WHOLE BLOOD TESTING:

There are no dietary or other pre-test instructions for Whole Blood draws.

Check the TEST(s) ORDERED/Specimen Required section of the Test Requisition form to verify a Whole Blood specimen is required.

Whole Blood specimen must be received within 24 hours of collection.

ORAL FLUID TESTING:

- Check the TEST(s) ORDERED/Specimen Required section of the Test Requisition form to verify an Oral Fluid specimen is required.
- Assure you have an unexpired, Oral Fluid Collection Kit.
- Follow instructions in the Oral Fluid Collection Kit to submit your specimen for testing.
- Label specimen tube with the following information:
 - Your first and last name EXACTLY as it appears on the Test Requisition;
 - Date of birth;
 - Test Requisition ID number; and
 - Date and time of collection
- Write the date, time and address of collection in the ORAL FLUID COLLECTION box located on the front top right of the Test Requisition

Oral Fluid specimen must be received within 7 days of saliva collection

SCHEDULING YOUR BLOOD DRAW(s) **We will send you a kit no need to call the lab**

Blood draws are scheduled online at CyrexLabs.com (recommended) or by calling Cyrex at 877/772-9739.

Your Test Requisition ID and Confirmation Code, listed on the top right-hand corner of the Test Requisition form, will be needed to complete the scheduling and payment process.

WHOLE BLOOD collections should only be performed on Monday, Tuesday, and Wednesday mornings and shipped the same day.

Take your unexpired Cyrex Serum Collection Kit and Test Requisition with you to your blood draw appointment.

PHLEBOTOMIST INSTRUCTIONS

SERUM TESTING:

Serum Quantity Required: A minimum of two (2) mL of serum is needed for performance of antibody assay and storage.

SST Tube - Red & Grey Top:

Fill tube and set at room temperature for 20 minutes. Centrifuge 15 minutes at 2000 RPM. Transfer serum to serum transport tube.

Ship serum specimens to be delivered within 10 days of collection.

WHOLE BLOOD TESTING:

Whole Blood Quantity Required: A minimum of six (6) mL of Whole Blood is needed.

Yellow-Top ACD Whole Blood Tube:

Fill tube to capacity, (6 mL). Partially filled tubes will be rejected due to improper ratio of blood to anticoagulant. Immediately invert the tube 8-10 times to mix and ensure adequate anticoagulation of the specimen.

DO NOT REFRIGERATE OR FREEZE WHOLE BLOOD SPECIMEN - SPECIMEN MUST BE SHIPPED SAME DAY AS COLLECTION, FAILURE TO DO SO MAY RESULT IN REJECTION OF SPECIMEN.

LABELING OF SPECIMEN - CRITICAL per CLIA regulations §493.1240

Each specimen tube must be labeled with the following:

Patient's first and last name EXACTLY as it appears on the requisition form;
Date of birth;
Test Requisition ID number;
Initials of phlebotomist;
Date and time of draw

(Write the date and time of draw, with initials of phlebotomist, on the front top right of this test requisition form as well.)

Cyrex does not accept specimens collected in the state of New York.

SHIPPING INSTRUCTIONS - SERUM/ORAL FLUID

1. Place all filled specimen tubes (serum and/or oral fluid tube) inside clear plastic "Biohazard Specimen Bag". Do not remove absorbent pad from bag. If patient provides self-collected oral fluid tube, include it in the bag with the serum
2. Fold and seal "Biohazard Specimen Bag" and place it in the foam insert; add any unused collection tubes outside of bag and close foam insert.
3. Place foam insert and test requisition form into the box and close the box.
4. Insert the box into the grey "UPS Laboratory Pak" and apply provided shipping label on the pack (if not already applied). Refrigerate specimen until ready to drop off.

Contact UPS at 800-377-4877 to schedule a pick-up or take to a UPS store.

5. Do not ship specimen on Friday. For specimen collected on a Friday, keep the specimen refrigerated over the weekend and ship on Monday.

SHIPPING INSTRUCTIONS - WHOLE BLOOD

1. Place filled whole blood specimen tube in protective sleeve and then place into clear plastic "Biohazard Specimen Bag."
2. Fold and seal "Biohazard Specimen Bag" and place into the foam insert.
3. Place foam insert and test requisition form into the box and close the box.
4. Insert the box into the white "UPS Category B (UN3373) Laboratory Pak" and apply provided UPS NEXT DAY AIR EARLY shipping label on the pack.

Contact UPS at 800-377-4877 to schedule a SAME DAY pick-up or take to a UPS store. DO NOT PLACE THE PACKAGE IN A DROP BOX.

SPECIMEN MUST BE SHIPPED THE SAME DAY AS COLLECTION. Sample must arrive at the lab within 24 hours of collection. Whole blood samples are only processed and accepted Tuesday through Thursday.

DO NOT REFRIGERATE or FREEZE SPECIMEN.

Failure to follow these instructions may result in specimen rejection.
